

## Two Week Meal Planner

Fill every cell. You will use your meal choices to do your grocery shopping. Breakfast could be cereal, bacon and eggs, pancakes etc. Include a beverage for each meal. Four of the boxes over 2 weeks (2 meals per week) are meals eaten out. Simply insert "restaurant" and assign the meal a cost. Fast food meals are \$30 and restaurant meals are \$80. Mix them up. Remember, your tastes in food will change between now and your twenties.
